

- Small, light lifter suitable for 2-keyhole sewer covers
- The Handylift Swinger has 1 tonne of breakout force provided by its powerful screw-jacks, and yet weighs less than 17kg
- It will lift single-piece or double-triangle covers. Various types of keys are available
- The standard kit comes complete with a PVC carry bag & a pair of keys, making it exceptional value for money compared to similar manual lifters on the market
- The recently launched 'BT Spec' model is a modified kit designed to tackle BT carriageway covers, and comes complete with keys and accessories specifically designed to lift those lids. This kit features a patented locking plate for lifting 4-keyhole carriageway covers.
- UK-based buyers can be safe in the knowledge that a Handylift Swinger will be fulfilling your obligations under the Manual Handling Operations Regulations 1992, protecting your operatives from potential back injury that can occur when using manual lifting keys
